# Grand Prix of Bratislava

## Dear friends of sport,

We meet again after another wonderful year at the 60th Grand Prix of Bratislava 2018. Figure skating sport club Slovan Bratislava, as the direct follower after a club, founded 14th of December 1871 by earl Waltz - Bratislava figure skating club brought up many excellent athletes, trainers, judges and functioners and until this day it continues in its successful work. Karol Divin, Ondrej Nepela, Liana Drahovska and Jozef Sabovcik managed to achieve significant medal places at major international figure skating competitions. A one of the greatest expert si figure skating was, indeed, widely recognized Doctor Ivan Mauer PhD., who passed away this year aged 92 years. His unlimited appetite for investigating the technical connection of figure-skaters movement into mechanical laws was undoubtedly unique. He will be missed. Dear friends, I hope you, athletes, manage to acheive amazing results and I wish to everyone to enjoy their time in Bratislava.

**Mária Hrachovcová**  
director, Grand Prix of Bratislava
