A well balanced Free Skating program for Juvenile must contain:

a) Maximum of 5 jump elements for Girls and Boys one of which must be an Axel type jump.

There may be up to two (2) jump combinations or sequences. A jump combination can contain only two (2) jumps. A jump sequence can contain any number of jumps, but only two most difficult jumps will be counted. Any single and double jump (including Double Axel) cannot be executed more than twice in total. Repeated jump must be executed either in a jump combination or in a jump sequence. Each repeated solo jump, which is not part of the combination or sequence, is evaluated with the 70 % of its original base value and will be marked as jump + REP.

b) There must be a maximum of two (2) spins of a different nature (abbreviation), one of which must be a spin combination and one must be a spin with no change of position. The spin combination can be executed with a change of foot and a minimum of eight (8) revolutions or without a change of foot with a minimum of six (6) revolutions. The spin with no change of position can be executed with a change of foot and a minimum of eight (8) revolutions or position can be executed with a change of foot and a minimum of eight (8) revolutions or without a change of foot and a minimum of six (6) revolutions. Both pirouettes are allowed to start by jumping.

In pirouettes, the minimum number of revolutions is in position two (2). If this condition is not met, the position is not counted.
